The Power of the Pivot

Brian Worthen, CEO of Visionary
Broadband and Mammoth
Networks

Wyoming's economic climate is facing serious challenges and businesses are going to have to adjust (pivot!) now or later. Adaptability is going to be key in how smart companies survive. Brian Worthen has bravely led Visionary Communications through this process a few times in 25 years and knows it's not an IF, but a WHEN. Join Brian to discuss:

- Always plan to pivot
- Overcoming fear in your team
- Letting go of past success to seek new success
- When it doesn't work out (pivot again, man!)
